

Weedforce Sidekick 5L 100% ACTUAL SIZE
140mmW x 140mmH

CAUTION
KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS
BEFORE OPENING OR USING

Sidekick™
WETTING AGENT &
SPRAY CONDITIONER

ACTIVE CONSTITUENTS:
350 g/L SOYAL PHOSPHOLIPIDS
350 g/L PROPIONIC ACID

Acidifying and Penetrating Surfactant Reduces Alkaline Hydrolysis
of Dimethoate Assists with Uptake of Foliar Fertilizers
Assists In Management of Spray Droplet Size.

APVMA Approval No: 84673/111088

DIRECTIONS FOR USE

RESTRAINT: DO NOT use with copper products.

RATES OF APPLICATION:

SITUATION:	RATE/100L	CRITICAL COMMENTS
Addition to herbicides to improve spreading and penetration. Glyphosate, 2,4-D, MCPA, Metsulfuron-methyl	250-500mL	Use high rate on stressed or difficult to control weeds
Reduction of pH to reduce alkaline hydrolysis. Dimethoate.	100mL	Add to water in spray tank before adding Dimethoate
To improve uptake of foliar fertilizers	300-500mL	Tank mixing with other agricultural chemicals may increase the potential for crop damage - check with supplier
Assistance in droplet size management to partially reduce the number of fine droplets produced from hydraulic nozzles by air and ground.	300-500mL	Helps to reduce the number of fine droplets. Weed Force Sidekick Wetting Agent & Spray Conditioner will reduce the fine droplets associated with, but not eliminate off-target movement. This is contingent upon good agricultural practice spraying and appropriate nozzle choice. Refer to Weed Force representative for further advice and stewardship.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS Weed Force Sidekick Wetting Agent & Spray Conditioner can be used where the addition of a wetter/spreader or self emulsifying oil is required or recommended on the agricultural chemical label.

PENETRATION AND WETTER Weed Force Sidekick Wetting Agent & Spray Conditioner is a multipurpose adjuvant which is composed of natural surfactants and penetrants derived from soybean oils. These are combined with propionic acid to produce a penetrant, surfactant, acidifier for use with herbicides, insecticides, fungicides, foliar fertilizers and plant growth regulators. The unique properties of Weed Force Sidekick Wetting Agent & Spray Conditioner enhance the uptake of many systemic herbicides, allowing them to effectively penetrate into leaves, without causing damage to non-target crop plants.

ACIDIFICATION Weed Force Sidekick Wetting Agent & Spray Conditioner also acts as an acidifier which will reduce pH, in most cases to between 4 and 5. This reduces losses due to alkaline hydrolysis and also assists with the uptake of weak acid herbicides.

DROPLET SIZE MANAGEMENT Weed Force Sidekick Wetting Agent & Spray Conditioner will reduce the number of fine droplets (<150micron) produced by flat fan nozzles, without increasing the

number of large spray droplets (>400micron). Weed Force Sidekick Wetting Agent & Spray Conditioner will reduce the fine droplets associated with, but not eliminate, off-target movement of the pesticide being used. This is contingent upon good agricultural spraying practice and appropriate nozzle choice. DO NOT use in situations that are conducive to drift. Refer to Weed Force representative for further advice and stewardship.

MIXING Half fill the spray tank with water and commence agitation. Add the required quantity of Weed Force Sidekick Wetting Agent & Spray Conditioner then add the recommended quantity of herbicide, insecticide or foliar fertilizer. Continue agitation while topping up the tank and during spraying. Do not use with copper products.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT: DANGEROUS TO FISH. DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL Store in the closed, original container in a dry, cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return

clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SAFETY DIRECTIONS Avoid contact with eyes and skin. Wash hands after use.

FIRST AID If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 13 11 26). If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY DATA SHEET For further information refer to the Safety Data Sheet (SDS) which is available from the supplier.

NOTICE TO BUYER To the extent permitted by law, all conditions and warranties and statutory or other rights or action which buyer or any other user may have against Weed Force Pty Ltd ("Weed Force") or Seller are hereby excluded. Weed Force hereby gives Notice to Buyer and other users that it will not accept responsibility for any direct, indirect or consequential

loss however arising (including negligence) from the sale, supply, use or application of this product or reliance on product information or advice provided by Weed Force or on its behalf. No warranty expressed or implied is given by Weed Force regarding its suitability or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not. Weed Force's liability shall, in all circumstances, be limited to replacement of the product or a refund of the purchase price paid therefor.

Causes skin irritation. Causes serious eye irritation. Harmful to aquatic life. Use personal protective equipment as required. Take off contaminated clothing and wash before reuse. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice. If eye irritation persists: Get medical advice. In case of fire, use carbon dioxide, dry chemical, foam, water fog.
